

International Conference on

3D Printing & Additive Manufacturing

12th-14th

October, 2026 | Berlin, Germany

Scientific Topics:

- Fundamentals of 3D Printing & Additive Manufacturing
- Additive Manufacturing Processes & Technologies
- Materials for 3D Printing (Polymers, Metals, Ceramics & Composites)
- Design for Additive Manufacturing (DfAM)
- Industrial & Large-Scale Additive Manufacturing
- Metal Additive Manufacturing & Powder Bed Fusion
- Bioprinting & Biomedical Applications
- 3D Printing in Healthcare & Medical Devices
- Aerospace & Automotive Additive Manufacturing
- Construction & Architectural 3D Printing
- Multi-Material & Hybrid Manufacturing
- Advanced Post-Processing & Surface Finishing
- Quality Control, Testing & Certification
- Simulation, Modeling & Digital Twins for AM
- AI, Machine Learning & Smart Additive Manufacturing
- Sustainable & Green Additive Manufacturing
- Rapid Prototyping & Mass Customization
- Supply Chain Transformation & Distributed Manufacturing
- Standards, Regulation & Industrial Certification
- Real-World Applications & Industrial Case Studies

ABOUT CONFERENCE

Welcome to the 3D Printing & Additive Manufacturing Conference, organized by Innovatex Conferences and scheduled for 12–14 October 2026 in Berlin, Germany. Guided by the theme “Transforming Global Innovation through 3D Printing & Additive Manufacturing Technologies,” this event brings together global experts, researchers, and industry leaders to share insights and explore emerging innovations. The conference offers nearly thirty focused scientific sessions covering the latest developments in AI, ML, deep learning, automation, and data-driven technologies. Participants will engage in keynote lectures, interactive presentations, and dedicated poster sessions showcasing promising young researchers. Set in the vibrant tech hub of Berlin, the event provides an excellent platform for learning, networking, and discovering the advancements transforming the future of intelligent systems.
