

International Conference on

Infectious Diseases, Bacteriology & Virology

16th–18th

November, 2026

Amsderdam, Netherlands

Scientific Topics:

- Epidemiology of Infectious Diseases
- Bacterial & Viral Pathogenesis
- Emerging & Re-Emerging Infectious Diseases
- Antimicrobial Resistance & Stewardship
- Molecular Diagnostics & Rapid Testing
- Clinical Microbiology & Laboratory Advances
- Virology: Structure, Replication & Evolution
- Zoonotic & Vector-Borne Diseases
- Vaccines, Immunization & Vaccine Development
- Host-Pathogen Interactions
- Viral Genomics & Molecular Epidemiology
- Infection Prevention & Control Strategies
- Pandemic Preparedness & Global Health Security
- Novel Antivirals, Antibiotics & Therapeutics
- AI & Data Analytics in Infectious Disease Research
- Public Health Surveillance & Disease Modeling
- One Health Approach to Infectious Diseases
- Healthcare-Associated Infections
- Translational & Clinical Research in Infectious Diseases
- Real-World Case Studies & Clinical Applications

ABOUT CONFERENCE

Welcome to the International Conference on Infectious Diseases, Bacteriology & Virology, scheduled for 16–18 November 2026 in Amsterdam, Netherlands. Centered on advancing global health through scientific discovery and collaboration, the conference brings together clinicians, microbiologists, virologists, epidemiologists, researchers, and industry professionals from around the world. The program features a broad range of focused scientific sessions addressing current challenges and breakthroughs in infectious diseases, bacteriology, virology, antimicrobial resistance, diagnostics, vaccines, and emerging pathogens. Attendees will participate in keynote talks, oral and interactive presentations, and poster sessions highlighting innovative research and contributions from early-career scientists. Hosted in Amsterdam—one of Europe’s leading centers for biomedical research and innovation—the conference offers a valuable platform for knowledge exchange, professional networking, and exploring solutions shaping the future of infectious disease prevention, diagnosis, and treatment.
