Scientific Program

Joint Event on
Public Health, Waste Management & Pediatrics

Day - 01 | November 16, 2026 | Mercure Hotel Amsterdam West, Amsterdam, Netherlands

9:00 - 10:00 Registrations and Opening Ceremony

Keynote Forum-1

10:00 - 10:45
Title: Postural hygiene in children and adolescents within the public healthcare systems of selected european countries
Agnieszka Jankowicz Szymanska, University of Applied Sciences in Tarnow, Poland

10:45 - 11:30
Title: Life cycle assessment and economic analysis of container composting of food waste in campus canteens
Hua LI, Nanjing Agricultural University, China

Morning Coffee Break and Networking |11:30 - 11:45

Speaker Session

11:45 - 12:15
Title: An ai-enabled process model for enhancing health literacy among female teachers in china: a grounded theory study
Xingyu Che, Foundation for Globalization and Fairness, Thailand

12:15 - 12:45
Title: Bioconversion of solanaceae plants cultivation toxic biomass to safe, nutritious animal feed
Serkos A. Haroutounian, Agricultural University of Athens, Greece

12:45 - 1:15
Title: Carbon materials facilitating smarter agricultural waste management for advanced environmental sustainability: 3D—0D
Junting Pan, Chinese Academy of Agricultural Sciences, China

Lunch and Networking | 1:15 - 2:30

2:30 - 3:00
Title: Healthcare workers' (hcws) role in inclusive disaster risk reduction (idrr) for individuals with chronic illnesses (icis) in fiji islands: a qualitative study
Meenal Nand, Griffith University, Australia

Poster Presentations

3:00 - 3:25
Title: Biological reduction of chromium (VI) by marine bacteria Bacillus megaterium under salinity conditions
Jittima Charoenpanich, Burapha University, Thailand

3:25 - 3:50
Title: Langerhans cells shape postnatal oral homeostasis in a mechanical-force-dependent but microbiota- and il-17-independent manner
Yasmin Jaber, Hebrew University of Jerusalem, Israel

3:50 - 4:15
Title: Effect of rice husk proportion on microbial succession and degradation kinetics during dairy manure composting
Xueru Zhu, Nanjing Agricultural University, China

Refreshments Break and Networking | 4:15 - 4:30

Speaker Session

4:30 - 5:00	Title: Transition from linear to circular economy in india: identifying key challenges and barriers **Naresh Chandra Sahu,** Indian Institute of Technology (IIT) Bhubaneswar, India
5:00 - 5:30	Title: Behavioral activation delivery by lay individuals in Latinx communities: a feasibility study **Melissa Rivera Marano,** Rutgers University, USA

Networking and Day Closing

Day - 02 | November 17, 2026 | Mercure Hotel Amsterdam West, Amsterdam, Netherlands

Keynote Forum-2

10:00 - 10:45	Title: Climate Change and Economic Consequences (2013–2024): Scientific, Economic and Political Evidence **Juan Antonio Torrents Arevalo ,** Polytechnic University of Catalonia, Spain
10:45 - 11:30	Title: Understanding green food consumption among male researchers in chinese higher education institutions: a conceptual framework based on environmental cognition, health beliefs, institutional climate, and masculinity norms **Songyu Jiang,** Rajamangala University, Thailand

Networking & Refreshments Break |11:30 - 11:45

Speaker Session

11:45 - 12:15	Title: Health behaviors to prevent cardiovascular risk: a systematic review **Nsabimana Mick,** Bujumbura Light University, Burundi
12:15 - 12:45	Title: From carbon capture to combustion: oscillatoria-based bio-coal systems **Kozhakhmetova Marzhan,** Al-Farabi Kazakh National University, Kazakhstan
12:45 - 1:15	Title: Data-driven and experimental development opportunities for municipal solid waste management systems **Viktor Sebestyen,** University of Pannonia, Hungary

Lunch and Networking | 1:15 - 2:30

2:30 - 3:00	Title: Structural vegetation protection provided by leafless caatinga during the dry season in the brazilian semi-arid region, a climate change spot **Jose Ramon Barros Cantalice,** Rural Federal University of Pernambuco, Brazil

Poster Presentations

3:00 - 3:25

Title: Influence of depacking parameters on the plastic contamination level in the organic fraction from food waste

Przemyslaw Seruga, Wroclaw University of Economics and Business, Poland

3:25 - 3:50

Title: Synergistic Reaction Kinetics and Dynamic Energy Recovery during Microwave Co-Pyrolysis of Cotton Stalk and Waste Mulch Film: Multi-Objective Optimization

Wenhao Tang, Nanjing Agricultural University, China

Speaker Session

3:50 - 4:15

Title: Novel and economical recovery of critical metals from industrial waste streams using nacl–based deep eutectic solvent: spent nmc811 cathodes

Simon MoonGeun Jung, Hankyong National University, South Korea

Networking & Closing Ceremony
