## ABOUT CONFERENCE

Welcome to the International Conference on Sustainable Waste Management, Environmental Science & Climate Change, organized by Innovatex Conferences and scheduled for 16–18 November 2026 in Amsterdam, Netherlands. Centered on the theme “Advancing Environmental Sustainability Through Smarter Waste Management & Climate Action,” this international forum brings together environmental scientists, sustainability experts, policymakers, researchers, and industry professionals from around the world. The conference will feature a wide range of scientific sessions focused on sustainable waste management, environmental monitoring, circular economy models, climate change mitigation and adaptation, green technologies, and policy-driven environmental solutions. Attendees will benefit from visionary keynote lectures, engaging oral and poster presentations, interactive panel discussions, and networking opportunities designed to foster collaboration and innovation. Set in Amsterdam—one of Europe’s leading cities for sustainability and environmental innovation—the conference provides an ideal platform to share knowledge, explore practical solutions, and contribute to shaping a cleaner, more resilient, and sustainable future.
